Summary

Full Stack Developer with over 8 years of experience designing, developing and deploying scalable web applications and CRM systems for UAE and Indian clients. Deep expertise in **PHP, Laravel, Express.js, Node.js, React.js, WordPress, CodeIgniter, MongoDB, MySQL, Bootstrap, JavaScript, HTML, and CSS**. Delivered 30+ production platforms including customer-facing web applications, role-based dashboards and CRM/API integrations, cutting manual data-entry effort by 40% and sustaining 99.9% uptime across cloud and VPS hosted environments. Skilled in building responsive, SEO-optimized, and user-friendly websites and dashboards with role-based access control. Experienced in API development, cloud deployment, and optimizing database performance for high availability. Actively uses AI-assisted development tools (Claude, Cursor, ChatGPT) to deliver projects faster without sacrificing code quality.

Work History

Unique Asset Experts Real estate

August 2022 – Present

Full Stack Developer

Dubai, UAE

- Led end-to-end development of multiple Website platforms using Laravel, Node.js, WordPress, and Webflow, improving operational efficiency for property management.
- Build dynamic search and filtering modules for large data catalogs, increasing on site engagement and qualified users inquiries
- Integrated CRM systems and third-party APIs from UAE developers to automate property data updates, reducing manual effort by 40%.
- Owned infrastructure end-to-end — cPanel, AWS, DNS, and deployment — sustaining 99.9% uptime across all client-facing sites.
- Developed role-based dashboards for agents, admins, and property managers, improving workflow and data accessibility.
- Collaborated with marketing and UI/UX teams to deliver SEO-optimized landing pages and responsive interfaces using Bootstrap, JavaScript, and custom CSS, boosting lead generation.
- Optimized MySQL database architecture for enhanced scalability, application speed, and long-term maintainability.
- Extended delivery beyond the core business — built websites and landing pages for sister brands in interior design and travel/tourism, applying the same platform architecture and design system across multiple industries.
- Built KashmirPropertyFinder.com's website and provided backend API and QA/testing for its Android and iOS Apps
